

Anthony P. Berg, M.D.

Anesthesiologist, fellowship-trained in Interventional Spine Pain Management

Dr. Anthony P. Berg brings his experience in Interventional Pain Management to Spine Team Texas. Prior to joining the team, Dr. Berg completed his residency in Anesthesiology at the University of Iowa and his fellowship in Interventional Pain Management at Wake Forest University School of Medicine – Carolinas Pain Institute in Winston Salem, North Carolina. He also served as an investigator at the Center for Clinical Research, a well respected institution conducting research for those in chronic pain.

Dr. Berg received his medical degree from The Texas A&M University Health Science Center where he attended on full scholarship. He earned his undergraduate degree with honors from Texas A&M University in College Station.

In addition to his clinical duties, Dr. Berg has been a guest author for “Techniques in Regional Anesthesia and Pain Management” and plans to write for a new publication “*Pain Pathways*” – a magazine dedicated to the research and treatment of acute, chronic, and cancer pain management. With a special interest in neuromodulation of the spinal cord, he recently presented early findings on its impact on the brain as studied by PET technology.

Dr. Berg is originally from Palestine, Texas and his wife Julie is from Denton. They have relocated permanently to Rockwall with their two children and look forward to becoming involved in this vibrant community while serving the residents of Northeast Texas.
