Spine Team Texas Hosts Official Ribbon-Cutting at New Allen Clinic

Allen, Texas (May 10, 2018) – Spine Team Texas, a premier facility for the treatment of back and neck pain, celebrated the expansion of its Allen clinic with a ribbon cutting and open house on May 10, 2018. Held in conjunction with the Allen-Fairview Chamber of Commerce, the

ceremony featured members of the award-winning, nationally recognized team of spine specialists.

Dr. David Rothbart, founder of Spine Team Texas, introduced Dr. Leonard Kibuule, Spine Team's director of surgical services east division and Texas Health Resources Allen department of surgery chair. Dr. Kibuule expressed the entire team's commitment to providing much-needed spine specialized services to citizens of the Allen area. He

stated, "We are excited to meet the needs of the growing Allen community for specialized, high-quality spine care. Our state-of-the-art facility will not only allow us to continue to provide high-quality clinic services, but also top-notch surgical services in our new surgical center."

Spine Team Texas will occupy almost half of the two-story, 48,000-square-foot medical office building on the southeast corner of Exchange Parkway and Raintree Circle. Like the other Spine Team Texas locations, the Allen office focuses on nonsurgical treatments, with minimally invasive

surgery as a last resort. Practicing at the Allen location are Drs. David Garrigues and Cortland Miller, physical medicine and rehabilitation physicians specializing in spine care; Edwin Shivers, PA; and Drs. Leonard Kibuule and Anton Zaryanov, orthopedic spine surgeons specializing in minimally invasive spine surgery.

For more information about Spine Team Texas' new Allen facility or to schedule an appointment, please visit www.SpineTeamTexas.com or call 817-442-9300.

About Spine Team Texas

Spine Team Texas specializes in the treatment of back and neck problems ranging from simple back or neck strains to the most complex spine surgeries. Through its in-depth knowledge and true team approach, Spine Team Texas is dedicated to treating patients conservatively through education, physical therapy, non-surgical treatments, and minimally invasive spine surgery when necessary. The philosophy of Spine Team Texas is to treat with an emphasis on nonsurgical treatment, whenever possible, and consider surgical intervention as a last resort when nonsurgical measures have failed to provide long-term relief. This philosophy is supported in the fact that approximately 90% of our patients are treated successfully through nonsurgical treatment options. (Individual results vary.) The team consists of physical medicine and rehabilitation physicians specializing in nonsurgical spine care; neurosurgeon and orthopedic spine surgeons trained in the latest minimally invasive spine surgery techniques; spine pain anesthesiologists focused on chronic spine pain; spine-focused physical therapists and on-site registered nurses.

Established in December 2004, Spine Team Texas is headquartered in Southlake, Texas, and opened a full-spectrum sister facility in Rockwall, Texas, in March 2009. Other locations include Bedford, Fort Worth-Alliance, Richardson, Allen, and Prosper. With approximately 175 employees, Spine Team Texas has received numerous awards such as 'Best Places to Work' & "Healthcare Heroes-Physician Award" by Dallas Business Journal, "Top Docs" in Fort Worth, Texas magazine, U.S. News & World Report "Top Docs" in neurosurgery, "Top Docs" in neurosurgery & physical medicine and rehabilitation by Castle-Connelly, D Magazine "Best Docs" in orthopedic surgery and physical medicine and rehabilitation, Becker's Spine Review "Top 105 Spine Surgery Practices to Know" & "Spine Leadership Award" in 2013 and 2015.
