Spine Team Texas Hosts Official Ribbon-Cutting at Allen Clinic

Southlake, Texas—October 14, 2015 | Spine Team Texas, a comprehensive spine center specializing in the treatment of back and neck pain, recently celebrated the opening of their sixth North Texas clinic with an official ribbon-cutting and open house, October 8. Held in conjunction with the Allen-Fairview Chamber of Commerce, the ceremony featured members of the award-winning, nationally recognized team of spine specialists.

On hand to address the crowd was Dr. David Rothbart, board-certified neurosurgeon and founder of Spine Team Texas. He expressed the entire team's enthusiasm in partnering to bring spine-specialty services to members of the Allen area and the Texas Health Hospital Allen medical community.

The opening of the clinic in Allen, Texas, also welcomed David Garrigues, M.D., a physical medicine and rehabilitation physician who provides nonsurgical acute spine pain management, to Spine Team Texas. Dr. Garrigues joins Spine Team Texas partner physicians Leonard Kibuule, M.D., an orthopedic spine surgeon specially trained in minimally invasive spine surgery techniques and Anthony Berg, M.D., a spine pain anesthesiologist, to make up the full-time Allen clinic medical staff.

Spine Team Texas Allen's strategic location allows for easy access for those residing in Allen, Frisco, McKinney and Plano. The clinic will be open full-time with spine specialists offering the full spectrum of spine care—both nonsurgical and surgical. The clinic is located at: 1105 North Central Expressway, MOB II-2370, Allen, Texas, 75013—directly on the campus of Texas Health Presbyterian Hospital Allen.

About Spine Team Texas

Spine Team Texas is a comprehensive spine center specializing in the treatment of neck and back pain, ranging from simple back or neck strains to the most complex spine surgeries. Through in-depth knowledge and a team approach to care, Spine Team Texas physicians and medical staff are dedicated to treating patients conservatively through education, spine-focused physical therapy, nonsurgical treatments, and minimally invasive spine surgery as a last resort or when medically necessary.

The comprehensive team includes physiatrists, specialized in acute spine pain management; neurosurgeons and an orthopedic surgeon, specializing in minimally invasive spine surgery techniques; spine-focused physical therapists; anesthesiologists, fellowship-trained in chronic spine pain management; and onsite registered nurses who help patients return to everyday activities. Established in December 2004, Spine Team Texas is headquartered in Southlake, Texas. The practice opened a full-service, sister-facility in March 2009 in Rockwall, Texas; one in Fort Worth, Texas (Alliance), in 2013; a fourth location in Bedford, Texas, in August 2014; a fifth facility in February 2015 in North Dallas (Richardson); and a sixth clinic in August 2015 in Allen, Texas, on the campus of Texas Health Presbyterian Hospital Allen.
